-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**FOREIGN PRIORITY**

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in JAPAN on 11/26/2003. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

**ALLOWABLE SUBJECT MATTER**

Claims 2,3,10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Neither the teachings of Ueda et. al. (discussed below) or any of the other references of record teaches or suggests a light emitting device or display that utilizes the mathematical formula recited in claims 2 and 10. Dependent claims 3 and 11 are also inclusive of the limitations of claims 2 and 10.

**102 REJECTIONS**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4-9 and 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Ueda et. al. US 2001/0020085A1.

Ueda et. al. teaches (Note pages 1-20) an optical light emitting device/display including plural polymer layers which emit a plurality of different color wavelengths with the light emitting device/display being placed between at least first and second electrodes wherein the light emitting device./display includes polayer layers which are formed and/or removed using raw solvents and/or raw solutions which clearly, fully meets Applicant's claimed limitations.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103(a), the Examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the Examiner to consider the applicability of 35 U.S.C. § 103(c) and potential 35 U.S.C. §§ 102(e), (f) or (g) prior art under 35 U.S.C. § 103(a).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Ogino et. al., U.S. Patent Application Publication No. U.S. 2003/0006699 A1 (Figs.1-11H), Fujita et. al., U.S. Patent Application Publication No. U.S. 2003/0042472A1 (Figs.1-9), Shirakawa, U.S. Patent Application Publication No.
